## President's Letter

Genealogy is fun; it is like working a puzzle. Genealogy is important; it deals with people. Genealogy is profitable; it establishes perspective, in the family, and in history.

Members of AGS seem to concur in all of this. Else how can you explain their good attendance, their big contributions to our "matching fund," and their delight in helping others! There is always something at the meetings for everybody--for the beginner and for the advanced amateur. Rome was not built in a day; nor can all research in this county be done in one year. But, knowing the enthusiasm of our members, we can assure you that the field of central Texas will be well covered as time goes by.

Our plan for the year involves a continuation of the acquisition program, through which we contribute books and microfilm to the State Library and Archives. Our plan further, is to continue research in Travis and surrounding counties. In fact, the interests and ambitions of our Society--located as it is in the Capitol city--often take on a larger area and a statewide interest.

So, this year we have formed new and vigorous committees, looking to the possibility that they will become standing committees. These committees are designed to increase and to coordinate research coverage. They will feed original and significant material to the QUARTERLY editor. The Organization Chart which follows indicates these fields.

Our budget will not likely permit future issues of this present size, but there is much more new unpublished material to come.

This issue of the QUARTERLY gives us new opportunities to help each other. Those who have made ancestral listings herein have "shot an arrow into the air." This issue goes to many libraries throughout America and to some foreign countries. May our listings fall to earth and be found long afterwards in the heart of a friend.

Sincerely yours,

/s/ O. V. KOEN

Editorial

I want to thank all who cooperated so nicely in submitting their Family Data Sheets which flooded my desk until six o'clock on the deadline date of February 15. More than half of the 800 records for the year came in the last four weeks. Most of the records are very complete and required only minimum editing--others sometimes required hours of work on lineage descent. If there are John SMITHS (1) to (7) and dates are incomplete, it is almost impossible for the Editor to determine the numerical order. While accuracy and completeness begin with the data sheets (which are sometimes illegible), please remember that a work of such comprehensive detail could not possibly be editorially perfect. In order to be as accurate as possible, however, we have paid infinite attention to detail.

In the 1965 Quarterlies the older members of the Society have standard genealogical instructions for completing the data sheets; new members do not have those Quarterlies, but for each new member we have a page of instructions which will be given with each supply of Family Data Sheets. We urge each member to read the instructions and comply with them as far as possible. It would be helpful if the data sheets were arranged in date or generation order and stapled in groups of the same family surname, as some have done.

With the increase in membership and attendant increase in time and effort required for production of the Ancestor Registry, the date deadline for submitting the Family Data Sheets has been moved from February 15 of the Quarterly year back to December 31 of the prior calendar year. For this year the deadline date will be December 31 for the 1967 Spring Quarterly. For many of us this is a once-in-a-lifetime opportunity to publish our lineages on our membership and record information which might never be printed anywhere else. Not only does the Ancestor Registry become a very fine reference file for our own use, but it records facts and information of great value to our future generations. It is most gratifying to know that we have perpetuated our ancestors' history.

We do not anticipate such a voluminous Ancestor Registry after this 1966 issue, simply because most of the early members of the Society are either represented in this issue or have published in prior issues; so we are continuing to allot space in the Registry for 20 new data sheets plus additions and corrections. We urge that all new members send in their Family Data Sheets and that all older members submit additional records early this year for publication in the 1967 Ancestor Registry.

The Quarterly is the heart of the Genealogical Society; it reaches out to each member and forms a sympathetic and stimulating bond of common interest of which the Ancestor Registry is the heartbeat. The Ancestor Registry puts into a few lines of print family history that has taken many years of devoted research on the part of the members, and affords each an opportunity to honor proudly the memory of those who have gone before.

I feel deeply that this Spring Quarterly should not go to press without a standing ovation to previous editors who have worked so earnestly to make the Quarterly a success. Only one who follows them can realize fully how much their genealogical skill and faithful efforts could mean in such an undertaking.

Sincerely,

/s/ E. Viola Long

## CEMETERY RECORDS COMMITTEE PLEADS FOR HELP!

Assistance from the Membership in the recording of Cemeteries in Travis and adjoining counties is greatly needed by the Cemetery Records Committee. The Committee is willing to keep the records and get them ready for publication in the Fall Quarterly, but we need assistance in obtaining records. It would be impossible for only four people to do the work and make this Society project a success.

Won't you please call one of the Committee and arrange to help. Also, be sure and clear with one of the Committee members before copying a cemetery, or to obtain a list of cemeteries which need to be copied. You may also call to get directions to the cemeteries. Please report any cemetery which needs to be copied:

Mrs. Lewis M. SPEARS	2205 Hopi Trail, Austin, Texas	GR 8-7061
Mrs. Herbert GENTRY	3311 Clearview, Austin, Texas	GR 7-5155
Mrs. E. C. LOGSDON	3505 Stevenson, Austin, Texas	GR 7-4582
Mrs. R. L. COFFMAN	2201 McCullough, Austin, Texas	GR 8-1281

The following may be of help to you in working in cemeteries and making your record:

Note location of the cemetery, including highway and road directions to reach it from Austin. Also comment on its general condition. Search each stone, include epitaph, etc., as well as all dates. Record all graves that are not marked. Make a curbing, fencing, etc., record of individual plots. Place small chalk checkmark on the stone when you have finished so as to avoid duplication. NOTE: Families are usually buried in the same area; keep all names together that appear on graves in family plots. Sometimes distant relatives and in-laws are buried in or near the same plot.

You will need to take the following to complete the search:

1. Paper and pens to record the inscriptions.
2. You can use chalk, powder, or flour to make the inscriptions more readable; or you can put paper over the inscription and color with crayons--the indentations of the inscriptions will make the letters appear stronger on the paper and more easily read.
3. A small piece of STYROFOAM is excellent for cleaning away moss or grime from the stones and can be used many times. DO NOT USE A WIRE BRUSH OR ROUGH MATERIAL, or you may deface the stone.
4. Pruning shears will be helpful in clearing away briars, weeds and vines.
5. Be sure and wear long gloves and heavy boots for protection against briars and crawling creatures.
6. A thermos of water will also come in handy.

WE MUST START WORKING NOW BEFORE WEATHER BECOMES TOO HOT AND WEEDS TOO HIGH.

/s/ Mrs. Lewis M. SPEARS, Chairman

PLEASE OFFER YOUR ASSISTANCE TO THE CEMETERY RECORDS COMMITTEE.  
THIS IS A VERY IMPORTANT PROJECT. ... Editor

1966 Ancestor Registry

The information on each individual in this year's Ancestor Registry was furnished by the member on a Family Data Sheet. After the data were extracted onto 3" x 5" index cards, the data sheets were returned to the members. As errors are found, or as new information is obtained, the member should correct the Family Data Sheet on the individual and forward it to the Editor for inclusion in the 1967 Spring Quarterly. In addition, a Family Data Sheet should be prepared on each additional ancestor who has not appeared in the Ancestor Registry. These data sheets should be forwarded to the Editor throughout the year so that the work of preparing the Spring Quarterly can be spread out through the entire year and prevent a heavy accumulation of work at the deadline date, which has been moved up to December 31.

They have not perished - No!

Kind words, remembered voices once so sweet

Smiles, radiant long ago,

And features, the Great Soul's apparent seat

All come back . . . . .
