AUSTIN GENEALOGICAL SOCIETY

Spring Quarterly

Vol. IX, No. 1March 1968

Published by AUSTIN GENEALOGICAL SOCIETY at Austin, Travis County, Texas, a non-profit organization chartered by the State of Texas to investigate, collect, record and deposit in libraries and archives the genealogical and historical materials of Texas, especially those items pertaining to the City of Austin, Travis County, and the adjoining counties, and to educate members in the use of these and other materials in preparing and publishing genealogical material and family lineages.

Editor, Mrs. E. Viola Long, P. O. Box 774, Austin, Texas 78767GR 2-5258

President's Letter

Let us take stock of ourselves, our society, and our future. We are members of the Austin Genealogical Society. Many of us joined to learn how to establish and record our own genealogies. Some were or are satisfied with ONE line, others are seeking data for several lines, some are determined to do lengthy pedigree, and yet others are actively doing for others. These are all admirable ambitions -- and while "variety is the spice of life", these same different interests can sometimes result in minor frictions when a sore toe gets rubbed. Let us work for the general good.

The subject of genealogy is broad enough to involve each and every member. AUSTIN GENEALOGICAL SOCIETY will grow as its members continue to work for the society as a whole and its every member in particular. Let us each resolve to add to the data of another member, let us encourage several, and DO let us encourage non-members to join with us in this ever-interesting and growing hobby. We do need an increase in membership. Will YOU not bring in one new member?

Looking to the future, are you making good use of the ever-growing collection of valuable materials being placed in the State Archives, the State Reference room, and the many facilities at our State University? Are you reading our many, many fine EXCHANGE QUARTERLIES? Are you studying the unique materials of Texas? When a hard-to-locate ancestor suddenly turns up, do you ponder the cause for the immigration or emigration? Can you determine the cause and learn if it was geographic, economic, political, religious, etc.? Do you appreciate the problems and hardships of his/her times? Are you using a different way of keeping your materials? Will you share your ideas with the rest of us? YOU are IMPORTANT! The future of AUSTIN GENEALOGICAL SOCIETY rests on the work of each member.

Sincerely,

/s/ Annie T. GILES
President

AUSTIN GENEALOGICAL SOCIETY

Membership meetings are held the 4th Tuesday of each month except December, at 7:30 p.m., in the Howson Branch Public Library, 2500 Exposition Blvd., two blocks north of Windsor Road in Northwest Austin. Paid membership is on a calendar year basis. Visitors and new members are welcome!

1968 Ancestor Registry

The information on each individual in the Ancestor Registry was furnished by the member on a Family Data Sheet. After the data were extracted onto 3" x 5" index cards the data sheets were returned to the members. As errors are found, or as new information is obtained, the member should correct the Family Data Sheet on the individual and forward it to the Editor for inclusion in the 1969 Spring Quarterly. In addition, a Family Data Sheet should be prepared on each individual ancestor who has not appeared in the Ancestor Registry. These data sheets should be forwarded to the Austin Genealogical Society throughout the entire year so that the work of preparing the following Spring Quarterly can be spread out through the entire year and prevent a heavy accumulation of work at the deadline date, which is December 31 of each year.

The completed Family Data Sheets require first-class postage. It will therefore be necessary for the member to enclose a self-addressed envelope and return postage with the Family Data Sheets submitted for publication.

When index cards made from the data sheets have served their purpose in the publication of the Spring Quarterly, the cards are filed in the State Archives and therefore become permanent records. More than 1,000 index cards were typed for the 1966-1967 Spring Quarterlies, and when filing them in the Genealogical Library the Editor found many duplications and even as many as three or four identical cards on one ancestor; however, some cards do have additional information. Not only are such duplications misleading, but the files are burdened with useless overcrowding. No records in the family data card file should be removed or changed except by the Ancestor's own family -- the one who has presented them for publication. Therefore, those concerned should feel it their responsibility to cull out duplications and retain only the complete and correct record.

Future revisions of such records should contain complete information on the ancestor and indicated as "Revised". Then the older card could be eliminated. All members who publish in the Spring Quarterly should keep an account of their own publication and not publish the same record again.

All requests for publication of ancestors' records should be submitted on the Family Data Sheet approved by the Austin Genealogical Society and instructions for filling out the form (see form and instruction this issue) carefully followed.

Lives of great men all remind us
 We can make our lives sublime,
 And departing leave behind us
 Footprints on the sands of Time.

INSTRUCTIONS:

1. Make a separate Data Sheet for each marriage of the ancestor on this page, and enter in short blank following word, "married", whether the marriage on this page was his 1st, 2nd, 3rd, or which, only if he was married more than once.
2. Make a separate Data Sheet for each marriage of the ancestress on this page, if she was married more than once.

Spring Quarterly - Ancestors of AGS Members

Many members found it difficult this year to prepare their Family Data Sheets in time to get their data published in the Spring Quarterly. These instructions, and the copy of the Data Sheet on the other side of this sheet, are presented in an effort to assist these members in getting their material prepared in time for the next Spring issue. The Data Sheet can be copied on any typewriter or copier; or the printed forms can be obtained from the Treasurer, the Secretary or the Ancestor Records Committee.

Each member may submit as many as 20 new Data Sheets for each Spring Quarterly; these should include information on 40 individuals (husbands and wives). As in the earlier Spring quarterlies, the next Spring issue of the Ancestors of AGS Members will index all ancestors and ancestresses by SURNAME.

You should prepare new Data Sheets on any individuals on whom you have obtained new or corrected information since publication of their data in the earlier Spring Quarterly, and indicate that it is a revision.

Deadline for receipt of Data Sheets for inclusion in the next Spring Quarterly is 31 December; therefore you have plenty of time to prepare the Data Sheets and get them in before that time. The Ancestor Records Committee must type the information from each Data Sheet onto 3" x 5" index cards; and the earlier you can send in your Data Sheets, the sooner the index cards can be typed up. This will eliminate the last minute rush evident in previous years; and the Ancestor Records Committee will be most grateful for the additional time. Your Data Sheets will be returned to you.

Special Instructions:

1. Please type or print all entries on the Data Sheets. Handwriting is sometimes difficult to read; and this leads to unnecessary errors in the Quarterly.
2. All SURNAMES are to be in all capital letters; each given name has only the initial letter in capital, with the other letters in lower case.
3. Use Maiden SURNAME for a woman, not her husband's SURNAME.
4. Each date, (when), should be as complete as possible, with day given first, month spelled out, and year. (Example: 20 December 1966).
5. Each place, (where) should be as complete as possible, and should include township, county or parish, if available.
6. Children's names should be as complete as possible, and listed in order of birth; continue on back of Data Sheet if you run out of room on the front.
7. Please underline the name of the child in your lineage.
8. Any additional data or explanation you may wish to add for clarification should be placed on the back of the Data Sheet.
9. When you have ancestors or ancestresses with identical names, use numerical identifiers to distinguish between them. Thus, if John SMITH had a son, John, designate the father as John SMITH (1), and the son as John SMITH (2). These identifying numerals are flexible, and can be changed as you discover additional John SMITHs, or eliminated when you discover second names or initials.

This is an excellent opportunity for you to publish your lineages, to help out others who are collateral kinsmen, and to bring to the attention of thousands of genealogists all over the country the lines on which your information is incomplete. Each year that the Ancestors of AGS Members are published makes our Quarterly a reference.
