PRESIDENT'S MESSAGE

Dear Reader:

This letter will be in the first quarterly of the year 1970 and the first one issued after I have become President of the Austin Genealogical Society. I am a relatively new member of the Society but hope to compensate for that by enthusiasm. I will need the help of all of the members.

Because of problems connected with my business I have given Mrs. Long none of the help I had promised her in getting out this quarterly. She deserves much credit for her good work on it. She is experienced in working with ancestor records and is an authority on the way they should be handled.

Mrs. Donna McBride has very kindly agreed to be Editor of the remaining three 1970 quarterlies. I look forward to seeing the various issues and urge all of our members to cooperate with the Editor in making such quarterlies top-notch.

The last two years Miss Annie T. Giles has done a great amount of work in serving not only as President but also as Editor of the quarterly and in catching up the past-due issues which we owed to the subscribers of prior years. Thanks to her efforts, the Society is now current with its issuance of quarterlies.

I ask the help of all the members in making this an interesting year and a productive one.

Your President,

Louise Kirk

EDITORIAL

The Spring Quarterly is specifically designed to give members an opportunity to publish and share with others information on their ancestors. The Family Data Sheet is forwarded to the Editor during the current year (deadline is December 31) for editing and processing for publication in the following Spring Quarterly. Data Sheets are now being received for the 1971 Spring Quarterly. Please send yours in early this year so there will not be an overload at year's end.

At the back of this quarterly are two listings in numerical sequence; the first "Is Your Family Name Here?" and the other is numerical "Key to Members of the Austin Genealogical Society." The sole purpose of the numerical key is to identify the members whose ancestor data are registered below or in former spring quarterlies, and we have found it a time- and space-saving device. The list is therefore numerical instead of alphabetical except by the first letter of the member's name. Here follows:

.....AND THOUGH
AGE AND INFIRMITY OVERTAKE ME AND I COME NOT
WITHIN SIGHT OF THE CASTLE OF MY DREAMS,
TEACH ME STILL TO BE THANKFUL FOR LIFE
AND FOR TIME'S OLDEN MOMENTS THAT ARE
GOOD AND SWEET: AND MAY THE EVENING TWILIGHT
FIND ME GENTLE STILL.

GET INVOLVED IN AUSTIN GENEALOGICAL SOCIETY!

Call the Editor or the Program Chairman or some Standing Committees and offer your help. It takes a lot of effort to plan and execute an interesting program. It takes a lot of effort to put out a quarterly. First, there are your own family data which make up most of the Spring Quarterly; then there are cemetery records, old church records, Bible records, courthouse records., etc., which will be published in the Summer, Fall and Winter Quarterlies, and it is neither fair nor desirable for a few to do all the work of your society.

This is very important: It is tremendously rewarding to cooperate and help fellow members. Let us work together to make this tenth anniversary an outstanding success. And do bring in new members!

Spring Quarterly - Ancestors of AGS Members

Many members found it difficult this year to prepare their Family Data Sheets in time to get their data published in the Spring Quarterly. These instructions, and the copy of the Data Sheet on the other side of this sheet, are presented in an effort to assist these members in getting their material prepared in time for the next Spring issue. The Data Sheet can be copied on any typewriter or copier; or the printed forms can be obtained from the Treasurer, the Secretary or the Ancestor Records Committee.

Each member may submit as many as 20 new Data Sheets for each Spring Quarterly; these should include information on 40 individuals (husbands and wives). As in the earlier Spring quarterlies, the next Spring issue of the Ancestors of AGS Members will index all ancestors and ancestresses by SURNAME.

Corrected Data Sheets on individuals who have appeared in earlier issues of the Spring Quarterly will not count in the 20 new Data Sheets for the next issue. You should prepare new Data Sheets on any individuals on whom you have obtained new or corrected information since publication of their data in the earlier Spring Quarterly.

Deadline for receipt of Data Sheets for inclusion in the next Spring Quarterly is 31 December; therefore you have plenty of time to prepare the Data Sheets and get them in before that time. The Ancestor Records Committee must type the information from each Data Sheet onto 3" x 5" index cards; and the earlier you can send in your Data Sheets, the sooner the index cards can be typed up. This will eliminate the last minute rush evident in previous years; and the Ancestor Records Committee will be most grateful for the additional time. Your Data Sheets will be returned to you.

Special Instruction:

1. Please type or print all entries on the Data Sheets. Handwriting is sometimes difficult to read; and this leads to unnecessary errors in the Quarterly.
2. All SURNAMES are to be in all capital letters; each given name has only the initial letter in capital, with the other letters in lower case.
3. Use Maiden SURNAME for a woman, not her husband's SURNAME.
4. Each date, (when), should be as complete as possible, with day given first, month spelled out, and year. (Example: 20 December 1966.)
5. Each place, (where), should be as complete as possible, and should include township, county or parish, if available.
6. Children's names should be as complete as possible, and listed in order of birth; continue on back of Data Sheet if you run out of room on the front.
7. Please underline the name of the child in your lineage.
8. Any additional data or explanation you may wish to add for clarification should be placed on the back of the Data Sheet.
9. When you have ancestors or ancestresses with identical names, use numerical identifiers to distinguish between them. Thus, if John SMITH had a son, John, designate the father as John SMITH (1), and the son as John SMITH (2). These identifying numerals are flexible, and can be changed as you discover additional John SMITHs, or eliminated when you discover second names or initials.

This is an excellent opportunity for you to publish your lineages, to help out others who are collateral kinsmen, and to bring to the attention of thousands of genealogists all over the country the lines on which your information is incomplete. Each year that the Ancestors of AGS Members are published makes our Quarterly a reference.
